

LINE TRIKE

The name says it all.. **LineTrike** is a three-wheeled machine that enables the operator to paint lines like no other machine.

LineTrike is an Australian design, built tough for all Australian conditions.

With safety in mind, the **LineTrike** line marker has been developed to exceed Australian Design Regulations.

The **LineTrike** line marker can be registered for operation on Australian roads, ensuring TAC Insurance cover.

The innovative design and premium materials and fittings sets the **LineTrike** apart from the pack.

LINE MARKING MADE EASY

The **LineTrike** is powered by a premium 14Hp V-Twin Briggs & Stratton motor, with electric start and back-up pull start.

The hydraulic powered piston fluid section provides a maximum flow rate of 8.9 litres per minute at a maximum pressure of 3300psi.

The **LineTrike** is simple to operate with all of the main controls within easy reach of the operator.

It boasts:

- 360 degree turning circle with variable ratio steering – allowing the machine access to tight areas, as well as keeping the machine off the road when performing U turns.
- Marine grade vinyl cushioned offset swivel seat to provide increased visibility and comfort. Adjustable height with moulded arm rests.
- Adjustable height Canopy with LED warning and clearance lights, providing safety and protection from the weather.
- Retractable rear mounted 15 metre Airless hose.

Additional features include:

- Compact, comfortable & easy to operate
- Computerised twin-gun configuration with Tip and Tip Guard along with 450mm extension pole for stencil work
- Large 20kg adjustable flow bead hopper is quick to refill and remains free of contaminates as it is housed under bonnet.
- 100mm to 150mm adjustable Bead Line Dispenser
- Stores 40 litres of paint on board. Easy-open access to paint containers makes replacing empty drums fast, efficient and clean.
- Pressure reducing relieving valve for instant pressure variation
- Dual closed circuit hydraulic pumps
- Front mounted clear LED daylight running lamps
- Wide angle canopy mounted rear vision mirror
- Disk parking break (rear wheels)
- Automatic turn speed reduction
- Spare tyre
- Easy to transport on a single axle trailer
- 347kg weight - empty
